

Client Presentation File – Amoun Agro

Prepared by: Orca Marketing Agency

Meeting Objective:

To present a full marketing strategy and action plan designed to double Amoun Agro's monthly sales from **25,000 to 50,000 EGP** within 3 months through SEO optimization, social media revival, and B2B lead generation.

1- Introduction & Meeting Recap

In our first meeting, we discussed Amoun Agro's goals, market position, and challenges. Here's a quick summary:

- Amoun Agro operates in the **specialized agricultural fertilizers sector**.
- The company already has:
 - A **Facebook page** (active since 2017, last posted in 2021).
 - An **official website**: amounagro.com
- The company targets both **B2B** and **B2C** sectors, with a focus on **B2B** for faster sales growth.
- The company's goal is to **double monthly sales in 3 months (25K → 50K)**.
- Current strengths include:
 - High-quality fertilizers.
 - A *money-back guarantee* policy.
- Current weaknesses:
 - Outdated online presence.
 - No ongoing content or SEO.
 - Weak after-sales communication system.

The purpose of this document is to show **how Orca will study, plan, and execute** a marketing strategy to reach these objectives.

2- Market Study

A. Sector Overview

- Egypt's agricultural fertilizer market is expanding due to **export-oriented farms, greenhouse expansion, and digital adoption in agriculture.**
- Annual demand is stable year-round, with a **dip during harvest months** (August and February).
- Increasing awareness among professional farmers about **premium fertilizers and guaranteed products** is shifting demand away from low-quality, counterfeit goods.
- The market is moving toward **scientific and trust-based branding**, where companies must prove product reliability and technical expertise.

B. Target Segments

We'll focus on five key B2B segments to achieve quick impact:

Segment	Description	Marketing Approach
Farms aiming for export	Focused on product quality and certifications	Case studies, success stories, & testimonials
Greenhouses	Require precision fertilizers year-round	Product explainers + technical video demos
Plant factories	Automated production → need consistent supply	Email marketing & CRM follow-ups
Sugar factories	Government/private contracts	Direct outreach & bidding materials
Distributors & resellers	Purchase in large quantities	Loyalty programs + offline communication

3- Competitive Analysis

A. Main Competitors

Competitor	Strength	Weakness
Shoura Chemicals	Large distribution, trusted brand	Weak digital content
KZ Agro	Good packaging & variety	Limited B2B targeting
Technogreen	Strong field support	Weak online branding
Syngenta / Bayer	Global reputation	Very high prices
Agrimatco Egypt	Active in B2B	Average branding, no strong digital presence

B. Competitive Gaps & Amoun's Advantage

MARKET GAP	OPPORTUNITY FOR AMOUN
MOST BRANDS LACK <i>GUARANTEE OR REFUND POLICIES</i>	Highlight " Guaranteed Results or Your Money Back "
WEAK ONLINE VISIBILITY & SEO	Rebuild website SEO to rank for fertilizer keywords
NO BRAND SHARES CONSISTENT <i>TECHNICAL EDUCATIONAL CONTENT</i>	Use technical content to build authority
NO CRM-BASED LEAD FOLLOW-UP	Implement WhatsApp-based CRM for continuous engagement

4- SWOT Summary

Strengths	Weaknesses	Opportunities	Threats
High-quality products	Outdated social media	B2B lead generation through ads	Price competition
Refund guarantee	Weak after-sales process	Website SEO optimization	Fake/low-quality products
Product variety	No content team	Reviving old audience on Facebook	Seasonal demand dips

5- Product Positioning Map

Purpose

To visually position **Amoun Agro's product portfolio** compared to main competitors in the Egyptian agricultural chemical market — based on two critical dimensions:

- **X-Axis:** Product Quality & Purity
- **Y-Axis:** Price / Accessibility

This map helps explain *where Amoun stands now*, and *how our marketing plan will move the brand upward-right (high quality + perceived value)*.

A. Current Market Landscape

Brand	Product Quality	Price Level	Target Market	Notes
Bayer Crop Science	Very High	Very High	Corporate / Industrial Farms	International trust, expensive
Syngenta Egypt	Very High	High	Industrial & Export Farms	Strong R&D, limited accessibility
KZ Agrochemicals	Medium	Medium	General Farmers	Mid-tier distribution
Technogreen	High	Medium	Greenhouses & Distributors	Reliable, but not innovative
Shoura Chemicals	Medium	Low	Mass Market	Big reach, weak product differentiation
Agrimatco Egypt	Medium-High	Medium-High	B2B Wholesalers	Strong network, average branding
Amoun Agro (current)	High	Medium-High	B2B & B2C	Quality with refund guarantee, needs brand trust

B. Strategic Goal

We aim to **move Amoun Agro's perceived position** from:

"High quality with low awareness"

→

"High quality with *premium perception* and *scientific credibility*."

How:

- By **rebuilding the brand's digital identity** (SEO + content + campaigns).
- By emphasizing **science, guarantees, and proven results**.
- By educating B2B clients about product quality and ROI through case-based storytelling.

C. Marketing Message Derived from Map

"Amoun Agro provides the *same trusted quality* as international brands — but with *local pricing, technical support, and money-back guarantee*."

This message will guide:

- Social content tone ("trusted science at a fair price")
- Website SEO keywords (e.g. "high-quality fertilizer Egypt")
- Ad campaigns ("Premium fertilizer — without premium prices")

6 – Target & KPI

Goal	KPI	Target Date
Increase sales 25K → 50K	Sales volume	3 months
Revive online presence	4 active platforms	30 days
Website traffic growth	+100% organic traffic	2 months
Generate B2B leads	100 qualified leads	3 months
Launch feedback system	WhatsApp CRM active	45 days

7 – Marketing Strategy

A. Core Direction

“We’ll reposition Amoun Agro as a **trusted, science-backed, and quality-guaranteed** brand — combining digital presence, SEO, and B2B lead generation.”

B. Funnel Plan

Funnel Stage	Objective	Actions
TOF – Awareness	Revive the brand presence	Revamp Facebook, Instagram, LinkedIn pages. Run reactivation ads.
MOF – Consideration	Build trust & educate	SEO articles, “How to Use” videos, case studies.
BOF – Conversion	Close sales & follow-up	WhatsApp leads → consultations → sales & feedback loop.

8 – Tactical Execution Plan

A. Website & SEO Optimization

Goal: Transform the existing website into a lead generator.

- Perform a **complete SEO audit** of amounagro.com
- Optimize for:
 - **Arabic & English agricultural keywords** (e.g., سماد عالي الجودة، smart fertilizer Egypt, potassium fertilizers).
 - **Meta titles, descriptions, internal linking, and schema.**
- Create new landing pages for **B2B sectors** (e.g., Greenhouses, Export Farms, Sugar Factories).
- Add blog section for organic ranking.
- Add lead forms connected to WhatsApp for quick response.

B. Social Media Revival

- Revamp old pages (Facebook, LinkedIn, Instagram).
- Create a 3-month content plan:
 - 3-4 posts per week (2 videos + 2 static designs).
 - Include **before/after results, field testimonials, and guarantee visuals.**
- Campaign theme:
"السماد اللي عليه ضمان" – **Trusted by Farmers, Backed by Science.**

C. Paid Campaigns

Objective: Generate qualified B2B leads.

- Facebook & Instagram ads targeting:
 - Farm owners, engineers, distributors.
 - Location: Egypt (focus on Delta, Upper Egypt, and export areas).
- Ad Types:
 - Lead forms connected to CRM.
 - Retargeting campaigns for old page followers.

D. After-Sales & Feedback System

- Build a **WhatsApp automation system** for follow-up:

“إزيك يا باشمهندس، عامل ايه في السماد اللي استخدمته من أمون؟ نحب نسمع رأيك”

- Collect client feedback → create testimonial library for content.
- Provide monthly performance summaries to show credibility.

E. Offline Support

- Design and print:
 - Product catalog (renewed design).
 - Flyers & banners for supply stores.
- Campaign idea:

“اضمن محصولك مع أمون – جودة مضمونة أو فلوسك راجعة”

9 – Services Orca Will Provide

Category	Service	Deliverables
SEO & Website Optimization	SEO audit + content optimization + lead forms	Keyword report, optimized site
Social Media Revamp	Rebranding + content strategy + visuals	12–15 posts/month
Ads Management	Targeted B2B campaigns	1-3 campaigns/month
Content Creation	Technical & educational materials	Scripts, captions, visuals
After-Sales System	WhatsApp CRM setup	Automation system
Offline Campaigns	Design + execution support	Flyers, posters, outdoor banners

10 – Conclusion

Orca will **revive and reposition Amoun Agro** as a trusted, quality-first agricultural brand — through SEO, social content, and B2B lead generation.

We aim to **double monthly sales within 3 months** while building a long-term marketing system that sustains growth.
