Content Guidelines & Best Practices

- **Visuals:** Use clean, bright, and visually appealing imagery to reflect the cleanliness and professionalism of your service. Images should feature happy families, spotless homes, and professional maids at work.
- **Copy Tone:** The tone should remain **empathetic, supportive, and solution-focused**. Make the customer feel like you're helping them, not just selling.
- **Hashtags:** Use branded and relevant hashtags like #نظيف_راحتك_تهمنا #تنظيف_احترافي #خدمات_مربيات to build brand visibility.

Key Tips for Alignment with the Media Buying Plan:

- **Test Multiple Ad Types:** Include video, carousel, and static images to keep content fresh and engage different types of audiences.
- **Boost Engagement Posts:** Use budget to boost posts that are already performing well (high engagement or click-through rate) to maximize reach.

- **Monitor Performance Daily:** Adjust spending towards the best-performing ads, optimizing both for engagement and lead generation.
- **Retarget Engaged Users:** The retargeting phase will focus on users who have already shown interest but haven't yet converted, maximizing the efficiency of your ad spend.
