Market Research – Kiwi Apparel

1. Market Overview (Alexandria)

- **Healthcare ecosystem in Alexandria:**
 - Alexandria University: Faculties of Medicine, Dentistry, Pharmacy, Nursing (thousands of students each year).
 - Over **25+ major hospitals** (public & private) → consistent demand for medical wear.
 - Large pool of **private clinic doctors** → interested in premium, stylish wear for patient-facing roles.
- **Trend:** Scrubs are no longer just uniforms → professionals and students want to **look stylish, feel comfortable, and express personality** while working.
- **Market gap:** Imported scrubs are desirable but expensive. Local brands are affordable but often outdated or imitative.

2. Competitor Analysis

Local Competitors:

- **Apex Scrubs:** Affordable, popular. Weak in fabric comfort. → *Kiwi = fashion-forward upgrade.*
- **Ivory Medical Wear:** Strong durability, chlorine-resistant. Weak in comfort & breathability. → *Kiwi = stylish & breathable alternative.*
- **N.A Scrubs:** Social media strong, trendy for women. Weak in originality (imitated designs). → *Kiwi = authentic & unique.*

Imported Brands:

- Wonder Wink, Mo, Healing Hands. Strength: premium quality. Weakness: high price + limited access.
→ Kiwi = local premium with global feel at accessible price.

3. SWOT Analysis

Strengths

- Unique new designs (not imitations).
- Premium imported fabrics (comfort + breathability).
- Strong online-first presence (Instagram/TikTok).

Weaknesses

- New brand, limited awareness.
- Budget constraints vs big competitors.
- No offline presence yet.

Opportunities

- Alexandria university hubs = huge student market.
- Expansion into Cairo & major capitals once winner persona identified.
- B2B partnerships with hospitals & medical schools.

Threats

- Competitors with larger marketing budgets.
- Imported brands gaining more reach in Egypt.
- Price-sensitive customers if economy shifts.

Marketing Research – Kiwi Apparel

1. Brand Positioning

“Kiwi Apparel – Where Medical Utility Meets Fashion Luxury”

- Core values: **Comfort + Fashion + Practicality + Premium Style.**
- Emotional promise: *“Not just scrubs, it’s a lifestyle.”*

2. Communication Strategy

- **Content Pillars:**
 1. **Lifestyle** → show doctors/students looking stylish in scrubs.
 2. **Fabric Quality** → breathable, durable, hand-finished.
 3. **Uniqueness** → Kiwi = not imitations, exclusive drops.
 4. **Community/UGC** → students/doctors posting with Kiwi.
- **Campaign Angles:**
 1. “Breathe. Move. Shine.” → focus on fabric comfort.
 2. “Not Just Scrubs, It’s Kiwi.” → lifestyle luxury.
 3. “One Brand. Every Body.” → highlight unisex inclusivity.

3. Channels & Budget Use

- **Instagram & TikTok (primary)** → Reels, lifestyle content, trend integration.
- **Facebook (secondary)** → groups for students/doctors, conversion ads.
- **Paid Ads** → Conversion-focused (retargeting + lookalikes).
- **UGC + Influencer Collabs** → small-scale with student doctors/interns.

Monthly Budget (EGP 10–12k):

- 8k → Strategy, design, moderation, production (fixed).
- 2–4k → Media buying (flexible, scaled by season/drops).
- *Focus: Push new collections aggressively in drops.*

4. Expansion Path

1. Phase 1: Alexandria Focus (Q1–Q2)

- Build strong community among students + young doctors.
- Identify “winning buyer persona” (highest conversion).

2. Phase 2: Cairo Expansion (Q3–Q4)

- Target same winning persona.
- Introduce B2B hospital/university partnerships.

Buyer Personas

Persona 1 – “The Trendy Med Student”

- **Age:** 19–23, medical/pharmacy/nursing student.
- **Class:** B.
- **Motivation:** Wants to look stylish during training.
- **Pain Point:** Local scrubs are boring, imported ones are too expensive.
- **Buying Trigger:** Instagram/TikTok ads + peer influence.
- **Content to Attract:** Trendy reels, unisex styles, affordable luxury tone.

Persona 2 – “The Young Doctor”

- **Age:** 25–32, resident or clinic doctor.
- **Class:** B+.
- **Motivation:** Balance between professional look and comfort.
- **Pain Point:** Long shifts = need breathable fabrics + premium image for patients.
- **Buying Trigger:** Word-of-mouth, aspirational ads, strong product photography.
- **Content to Attract:** Lifestyle shots (confidence + professionalism).

Persona 3 – “The Practical Nurse/Pharmacist”

- **Age:** 22–35.
- **Class:** B.
- **Motivation:** Comfort, durability, functionality.
- **Pain Point:** Needs affordable but stylish uniforms.
- **Buying Trigger:** Value-for-money campaigns.
- **Content to Attract:** Informative posts about fabric, durability, comfort.
