Summary

Highly analytical Software Engineering Student (O1-Talent) and experienced Marketer with a deep technical specialization in Cybersecurity, Penetration Testing, and Red Teaming tactics. Possesses strong expertise in OSINT (Open Source Intelligence) techniques for digital footprint tracking and a solid understanding of Social Engineering mechanics utilized in financial cyber threats and phishing schemes. By blending an adversarial security mindset with data-driven research skills and user behavior analysis, I possess a unique edge in detecting transactional anomalies, uncovering fraudulent identities, and mitigating risk. Ready to bridge the gap between cybersecurity engineering and compliance to excel as an AML, Fraud, or Transaction Monitoring Analyst.

Work Experience

- **Marketing Manager – Corporate Company (2024 – 2025)**
 - 2 year of full-time corporate experience
 - Monitored and audited high-volume user data and client platform traffic to identify behavior patterns, anomalies, and potential system risks.
 - Utilized data-driven research and advanced audience segmentation to map out consumer journeys, ensuring strict alignment with operational KPIs.
 - Conducted deep OSINT-based market and competitive research to detect fraudulent trends, industry vulnerabilities, and strategic growth opportunities.
 - Led and supervised cross-functional teams (Content Creators, Developers, Media Buyers), ensuring quality assurance, risk mitigation, and timely delivery under tight project deadlines.
 - Led and mentored a team of Content Creators, Media Buyers, and Graphic Designers to execute integrated, high-performance campaigns.
 - Served as the primary liaison for 20+ key clients, delivering comprehensive analytical reports and presenting data performance audits to stakeholders.
- **Intern – Cairo Airport Company (CAC) (40 Days, 2023)**
 - Gained practical exposure to corporate marketing functions, Public Relations (PR), and strategies for enhancing customer experience and branding
- **Vice President of Marketing – Enactus Zagazig (2024)**
 - Directed the marketing department, successfully managing content creation, awareness campaigns, and overall social media strategy.
 - Built and delivered a structured educational curriculum (training, tasks, workshops) for 30+ new members, fostering skill development within the team.
 - Supervised a team of creators, designers, and coordinators, achieving all departmental marketing and outreach goals
- **Ethical Hacking Instructor – Student Club (Zagazig University – 2024)**
 - Designed and delivered hands-on penetration testing and cybersecurity workshops to computer science and engineering students.
 - Provided practical training in ethical hacking tools and methodologies.

Education

- **Bachelor of Marketing, Faculty of Tourism & Hotels**
 - El-Mansoura University — Graduated 2025
 - GPA: 3.7 / 4.0 (A+)
- **Diploma in Software Engineering & Advanced Tech Solutions | O1-Talent (France)**
 - Innovative Global Tech Education Company & Talent Agency
 - **Expected Graduation: 2027** (2-Year Intensive Program, 2025 – Present)
 - Immersive, project-based software engineering curriculum focusing on full-stack development, algorithmic logic, data structures, and secure coding practices.
 - Developed rigorous analytical and collaborative problem-solving skills through decentralized peer-to-peer engineering projects.
- **MILITARY SERVICE**
 - Completed — 2025
 - Strong academic foundation in consumer psychology, behavior analysis, operational frameworks, and strategic market research.

Skills

- **Technical & Analytical Tools:**
 - Linux/Kali Linux Environment
 - Software Engineering Principles (O1-Talent)
 - Secure Coding Logic
 - Penetration Testing & Vulnerability Assessment
 - Advanced Data Research & Investigation
 - Technical Reporting
- **Financial Crime & Compliance:**
 - Anti-Money Laundering (AML) Core Concepts
 - Behavioral Pattern Analysis
 - OSINT (Open Source Intelligence)
 - Risk Assessment
 - Social Engineering Mechanics
- **Soft Skills:**
 - Leadership & Team Management
 - Analytical Thinking & Problem Solving
 - Communication & Client Handling
 - Project Management
 - Creativity & Decision Making
